

Mobile

Simple, yet flexible tariffs to cover all business requirements

Mobile connectivity has become an essential tool for modern businesses to stay connected to employees, customers, and suppliers, wherever they work, live, or do business.

Mobile offers a continuous connection to your business and data, resulting in increased efficiency and improved communications within your workforce.

Our mobile proposition offers you complete flexibility. No complicated pricing, just simple tariffs that enable flexible working. With our plans, you can stay productive and keep your employees connected when they are out of the office or working remotely.

You can ensure important calls and messages aren't missed and provide instant, remote access to email, internet, synchronised calendars, collaboration tools and app, and company networks.

- O2, Vodafone & EE networks
- Future-proof your business with 5G ready tariffs – with no additional charges
- Avoid bill shock with our suite of usage alerts, bill limits, caps, and bars
- Flexible agreement terms to suit your business needs
- Tailor your plans with bespoke tariffs to meet your business requirements
- Single & Sharer tariff options Unlimited calls, text & data plans available

Why Choose Connect365?

Access UK allowances whilst roaming worldwide for a low daily fee

Simple international options. Call & text abroad for less

Why use mobile for your business?

Flexibility – Mobile gives you the freedom and flexibility to access the network from anywhere, at any time

Instant access with Cloud based apps – Storing files in the Cloud makes agile working even easier as you can access them using your mobile device whenever and wherever you need them

Increase productivity – With immediate access to all your emails and files on your mobile phone, you no longer need to wait until you're in the office to complete a task, meaning you can make the most out of your time and improve efficiency

Remain in contact with colleagues and customers – By using mobile, you can be reached whenever your customers need you, meaning you can improve your customer service experience

Improve employee engagement & collaboration – With many mobile applications designed for collaboration, employees are easily able to get in touch with each other and work together on projects, no matter where they are

Environmentally friendly – By introducing mobile and agile working, employees can work from home more often, skipping the commute and reducing their carbon footprint
