Yealink T4U Series of IP Phones

Experience Modern Voice Communications

The new-gen T4U series greatly improves the call experience and work efficiency with dual USB ports, Ultra HD sound quality, faster response speed, and even more advanced features. The new T4U series will be a powerful assistant for modern business.

Distraction-Free HD Communications

The Yealink T4U series provides distraction-free communications with Yealink's industry-leading Acoustic Shield Technology. Moreover, by leveraging Yealink's Optima HD audio technology, and the addition of Opus to its broad audio codec list, Yealink's new T4U series guarantees HD sound quality and a distortion-free communication experience.

* By supporting Opus, the Yealink T4U series delivers better audio quality in both high-bandwidth and poor network conditions, compared to other wideband or narrowband codecs.

Dual USB Ports, Strong Scalability

All T4U models are equipped with dual USB ports, meaning the entire series allows users to connect two Bluetooth dongles, Wi-Fi dongles, EHS40 headset adapters, USB headsets or USB disks at the same time. With dual USB ports, the new T4U series flexibly adapts to various scenarios and demands.
